What is the Arizona Early Childhood Development and Health Board (First Things First)?

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

First Things First Mission

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve, with a focus on demonstrating improved outcomes around First Things First's six goal areas prioritized by the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

First Things First Goal Areas

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood development and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional development and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health.

What is the Funding Source?

The First Things First initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the Board of First Things First. Funding is allocated to each Regional Partnership Council based on the population of children aged five or younger and the population of children aged five or younger whose family income does not exceed 100% of the Federal Poverty Level.

The Regional Partnership Council that is involved in the release of this Request for Grant Application includes the following:

- South Phoenix Regional Partnership Council

Who is Eligible to Apply for this Funding Opportunity?

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

What is the Total Funding Amount Available in this Request for Grant Application?

This is a ten (10) month contract with an option for renewal for two (2) additional twelve (12) month periods. Total funds available are approximately \$282,903 for the first funding period. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds. One or multiple awards may be made.

Scope of Work: What Will This Grant Fund?

The South Phoenix Regional Partnership Council has identified the need for regional implementation of programs to provide comprehensive professional development to enhance administrative, leadership, and business skills of early childhood education administrators.

Specifically, the South Phoenix Regional Partnership Council is interested in implementation of the following activities in the region:

- Mentoring or coaching efforts aimed at supporting leadership development and the administrative capacities of child care providers
- On-site consultation addressing administrative functions and capacities of lead teachers and administrators

- Training programs or classes that address fiscal administration, systems management, human resource development, or other administrative skills needed by child care professionals
- Engagement with national teachers in the area of early childhood, development, and education, thus enhancing the status of early care and education itself, and providing for opportunities for early care providers to share ideas and information with their colleagues

The Regional Council will potentially award one or more grants in this strategy area. However, successful Applicants who become grantees will be expected to implement all four of the activities outlined above.

The target population that would benefit from successful implementation of these strategies is the early childhood development workforce, including providers, teachers, directors, and others working directly with children birth through age five and their families.

Proposals may reflect expansion of existing programs, such as the programs mentioned below. Funding may also be used to establish new projects operating in the South Phoenix Region. Applicants should show how regionally allocated funding would be used to enhance or increase existing professional development efforts in the region, rather than simply funding existing efforts.

The South Phoenix Regional Partnership Council serves, and Applications submitted in response to this RFGA must serve, the southern portion of the City of Phoenix including zip codes 85009, 85031, 85033, 85035, 85037, 85040, 85041, 85043, and 85339.

A needs and assets assessment of the region has shown that there is a lack of professional training and credentialing of professionals in the South Phoenix Region. Nearly 65 percent of childcare teachers and 83 percent of classroom assistants do not possess any type of degree in the South Phoenix Region. Advanced education also appears to be lacking among early care and education administrators.

Because of this need, the South Phoenix Regional Partnership Council is funding scholarships for early care and education professionals through the First Things First's T.E.A.C.H. (Teacher Education and Compensation Helps) scholarship program. Through T.E.A.C.H., participants can earn degrees such as CDA or an Associate's degree, helping improve knowledge of best practice in early care and education while simultaneously improving retention among early childhood teachers.

While support of T.E.A.C.H. will go a long way towards enhancing professional development among early care and education providers in the region, the Regional Council also recognizes that there is a need to support additional, more advanced skill development among early care and education providers. In particular, there is a need to enhance their business skills so that they can effectively and efficiently manage the business side of running early care and education programs in the region. There is also a need to foster mentorship opportunities among administrators.

Researchers and policy makers across the country are beginning to put more focus on enhancing leadership and administrative skills among childcare administrators in order to enhance program quality. Research has consistently found that overall administrative practices are crucial for ensuring high-quality outcomes for children and families (Bloom 1989, 1996; Whitebook, Howes & Phillips, 1990). Without quality systems in place at the organizational level, high-quality interactions and learning environments at the classroom level cannot be sustained.

Examples currently exist of such leadership and skills development efforts in the region. They include the CHASE Early Education Emergent Leader Program and the Rio Salado's Arizona Director's Academy.

This Request for Grant Application is seeking Applicants to address these specific Goals and Key Measures:

First Things First Goal Areas to be addressed:

- Professional Development
- Quality and Access

First Things First Goals to be addressed:

- First Things First will build a skilled and well prepared early childhood development workforce
- First Things First will increase retention of the early care and education workforce
- First Things First will improve access to quality early care and education programs and settings

First Things First Key Measures to be addressed:

- Total number and percentage of professionals working in early childhood care and education settings with a credential, certificate, or degree in early childhood development
- Total number and percentage of professionals working in early childhood care and education who are pursuing a credential, certificate, or degree in early childhood development
- Retention rates of early childhood development and health professionals

Applicants proposing mentoring programs will be required to produce the following deliverables. Accordingly, Applicant proposals responding to this RFGA should outline how these deliverables will be accomplished in the "strategies" section of the proposal. The deliverables include:

- Establish a mentoring program that includes effective/proven components of a mentoring program and views mentoring as a core component of professional development — a replacement for less effective training modalities, rather than an additional service.
- Identify selection criteria for mentors/coaches and participating administrators/practitioners.

- Include roles, responsibilities, and expectations of mentors/coaches and participating administrators/practitioners, job descriptions, and other written documents.
- Develop cohorts of participants.
- Create a clear and multi-direction communication system between mentors and participants.
- Develop and implement individualized professional development training plans.
- Establish mechanisms that support on-going training and support for mentors and participants:
 - Provide mentoring/coaching to administrators that support leadership development and administrative competency.
 - Provide mentoring/coaching to practitioners that support teaching self-confidence and self-efficacy in teaching (a belief in one's ability to be effective with children and families).
- Develop on-site or near-site trainings for center administrators that address fiscal administration, systems management, human resource development, and related administrative skills/tasks.
- Design an evaluation process to assess system efficacy.

Applicants proposing to deliver training opportunities will be required to ensure that such training is designed and implemented according to the following principles. Accordingly, Applicant proposals responding to this RFGA should outline how these principles will be adhered to in the “strategies” section of the proposal.

- Training should be based on current research, core areas of competency, and early learning standards
 - Curriculum should incorporate and reflect the theoretical framework that informs practice in the classroom
- Participants should be afforded opportunities for practical Application of the theoretical foundation to real-life classroom activities and situation
 - Training experiences should be relevant to the participant's background and current role
- Instructors should possess appropriate credentials and experience in conducting professional development activities
- Instructors should possess appropriate credentials and experience in conducting professional development activities
- Training sessions should involve adult active learning techniques for participants
- Professional development should include opportunities for on-site technical assistance, mentorship, and supervision
- Instructors should be knowledgeable about and possess experience in working with both adult learners and young children ages birth through five
- An assessment should be implemented (such as a pre/post assessment) of the outcomes of the training before a certificate of completion is awarded.

Trainers that work under this grant opportunity are required to meet minimum qualifications, including the following:

- Demonstrate knowledge and skills that reflect current best practices and research that are aligned with the Arizona Department of Education's Early Childhood Education standards for children and professionals.
- Possess the minimum of a Bachelor's Degree in Early Childhood Education or a related field in order to meet the qualifications of adjunct professor at a local higher education institution.
- Have a minimum of five years experience working with young children (combination of classroom and supervisory experience).
- Have experience in providing adult education and have knowledge of adult learning styles.
- Bilingual English/Spanish preferred.
- Have demonstrated competencies or training in cultural competency.

As part of implementing the Scope of Work, Applicants who become grantees will be required to follow the **Standards of Practice**:

1. Provide training to early childhood professionals based upon a culture of trust and respect.
 - a. Clearly define program objectives to ensure comprehension, engagement, and retention.
 - b. Create opportunities for formal and informal feedback and act upon it; ensure that input shapes decision-making.

 - c. Develop a collaborative, coordinated response to community needs.
 - d. Be accessible for program participants.
 - e. Ensure a manageable classroom size and appropriate staffing patterns.
3. Ensure the provision of high-quality professional development opportunities through experienced and responsive staff.
 - a. The length of employment and experience/education are reflective of high quality staff. The training instructor is required to possess:
 - i. Demonstrated knowledge and skills that reflect current best practices and research that are aligned with Early Childhood Education standards for children and professionals.
 - ii. The training instructor must have experience in early childhood education, elementary education with a concentration in early childhood, child and family studies, or a closely related field in order to meet the qualifications of adjunct faculty at the local community college. Supervisors must meet or exceed these requirements with at least two years of program management experience. If programs experience hardship in recruitment efforts, they must notify and consult with First Things First.

- iii. Minimum five years experience working with young children (combination of classroom and supervisory experience).
- iv. Experience working with adult learners.
- v. Bilingual English/Spanish preferred.
- b. Assess staff skills and abilities. They must be able to engage participants while maintaining a professional rapport.
- c. Provide ongoing staff development/opportunities for professional development, including topics such as cultural competence; and setting professional goals.

The strategies outlined in this RFGA are part of a larger effort by First Things First to enhance and improve access to professional development opportunities among early care and education professionals. First Things First recognizes the need to foster a variety of options to engage providers in professional development. In addition to college coursework, other formats of professional development can encourage individuals who have been away from formal schooling to return to the classroom. Applicants for this RFGA who become grantees can play a role in building a foundation of community-based professional development. Thus, as a part of implementation, Applicants who become successful grantees will also be responsible for:

- Facilitating potential college credits for community-based trainings
- Determining criteria for trainings that will be eligible for college credit
- Determining necessary education level of the trainer in coordination with the level of college credit given (the higher the level of coursework in the college program, the higher the educational level of the trainer must be i.e. 100+ level courses must be taught by master's level instructors)

Given the complexity of ensuring college credit for community-based trainings, this component may not be realized until the second or third year of funding. The focus for this first year should be on the steps above to ensure that there are standards for community-based trainings that will meet requirements for transfer to colleges and universities. Similarly, trainer qualifications should be in place in the first year to ensure such transfers.

Coordination and collaboration with all First Things First grantees is critical to developing a seamless service delivery system for children and families. Services and programs cannot be implemented in isolation and coordination and collaboration must occur within a region and across regions. First Things First staff and Regional Councils will identify opportunities for collaboration and coordination with successful Applicants that become grantees of First Things First. Successful Applicants will be required to attend meetings and workgroups in the region being served to identify, develop, and implement mechanisms around coordination and collaboration. Successful Applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross-regional analysis. Successful Applicants will also participate in cross-regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, Applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, four cross-regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel policy as described on the budget narrative worksheet.

Applicants who become grantees are required to provide evidence of the effectiveness of their proposed approach in increasing professional competencies. As part of this effort, Applicants who become grantees should implement assessments of professionals participating in professional development efforts, using the Program Administrative Scale (PAS) instrument.

In addition, Applicants who become successful grantees will need to assess the effectiveness of any training efforts, either through an assessment process or a follow-up visit by a mentor or coach to determine if professional practice has been changed based upon what was learned in the training.

All evaluation efforts should be directly connected to the Goals, Key Measures, and the Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g. number of children served/proposed service number = 52 actual children served/50 proposed service number).

Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information, all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures. Performance Measures for purposes of this RFGA are as follows:

Performance Measures:

- Number of participants reporting satisfaction with provided services (minimum questions provided by First Things First staff)/actual service number
- Number of participants recruited/proposed service number
- Number of participants/number of participations recruited
- Number of participants progressing towards or completing educational goals/number of participants

- Rate of participant turnover/strategic target number
- Percent of early care and education professionals at a center director level retained for 5 years
- Total number and percentage of early care and education programs participating in a quality enhancement program improving their environmental rating score
- Total number and percentage of programs participating in comprehensive administrative professional development programs that have increased their scores on the Program Administration Scale pre/post assessment linked to evidence-based practice, regulations, and standards/strategic target number

In addition, the intent of First Things First funding is to address gaps and needs in the community rather than to fulfill budget shortfalls that may exist in any given year at the state or local levels. No additional narrative is required.
31. Describe your organization's business management system by completion of the Financial Systems Survey. Attach the Financial Systems Survey (Attachment I) to capture basic financial system/operational information to assess financial capacity early in the process. No additional narrative is required. As noted in the financial system survey, you are required to submit a complete copy of the most recent audited, reviewed or compiled financial statements as well as a schedule showing the TOTAL federal funds (by granting agency) expended by your agency for the most recent fiscal year. NOTE THAT ONLY ONE COPY OF EACH OF THESE DOCUMENTS NEEDS TO BE INCLUDED WITH THE APPLICATION MARKED "ORIGINAL."

The following applies to requested funds:

- List all resources that will be needed to implement the program/strategy(ies) described. These financial resources may involve costs for personnel, employee related expenses, training, travel, supplies, space, equipment, stipends/fees associated with expert speakers and participant incentives (i.e. child care), etc.
- Funding shall be limited to those items specifically listed in the proposed budget. Total funding may not be modified following award of the grant/contract. Requests for line item modifications, which do not change the total program funding, shall be requested in writing and shall only be made following receipt of written authorization from First Things First.

- Successful Applicants will be required to attend meetings and workgroups in the region being served to identify, develop, and implement mechanisms around coordination and collaboration. Successful Applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross regional analysis. Successful Applicants will also participate in cross regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, Applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, four cross regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel rate for mileage, per diem and lodging as described on the budget narrative worksheet. For more information about the state requirements, visit <http://www.gao.state.az.us/travel/>.

Evaluation Plan (15%)

This component will address questions about how the program is working and what can be done to make the program more effective. The evaluation should be directly connected to the Goals, Key Measures, and the Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g. number of children served/proposed service number = 52 actual children served/50 proposed service number).

Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information, all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures. Performance Measures for purposes of this RFGA are as follows:

Performance Measures:

- Number of participants reporting satisfaction with provided services (minimum questions provided by First Things First staff)/actual service number
- Number of participants recruited/proposed service number

- Number of participants/number of participations recruited
- Number of participants progressing towards or completing educational goals/number of participants
- Rate of participant turnover/strategic target number
- Percent of early care and education professionals at a center director level retained for 5 years
- Total number and percentage of programs participating in comprehensive administrative professional development programs that have increased their scores on the Program Administration Scale pre/post assessment linked to evidence-based practice, regulations, and standards/strategic target number

Applicants must include a plan for Evaluation and Quality Improvement by completing the following questions.

32. Describe any additional Performance Measures that will be collected during the implementation of the proposed strategy.
33. Who will have overall responsibility for the data collection and reporting? Be sure to include this person in your Key Personnel Overview (Attachment C).
34. How will the required data be collected? Describe how you will ensure that data entered into the First Things First web-based database after it has been collected is accurate and timely. What procedures will be in place to assure the quality of your data (e.g., training for data collectors, data collection forms, timeliness for administering tools, etc.)?
35. Complete the Evaluation Plan Overview table in Attachment J.
36. What resources (e.g., personnel, supplies, computer, etc.) will be needed to complete necessary activities related to the quality data input and data collection of the program? In addition to a narrative description, the funds dedicated to evaluation should be reflected in the budget.

BUDGET NARRATIVE EXPLANATION

The purpose of the budget narrative is to provide more clarity and detail on the various budget line items. The budget narrative should explain the criteria used to compute the budget figures on the budget form. Please verify that the narrative and budget form correspond and the calculations and totals are accurate.

Personnel: *Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also, be sure to include the scheduled salary increases on the Budget Form.*

Fringe Benefits: *(Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.*

Contracted Consultant/Professional Services: *If professional consultants/services costs are proposed in the budget, define how the costs for these services were determined and the justification for the services related to the project. Explain how all contracts will be procured.*

Travel: *Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel, the justification for travel, how many employees will attend and how the estimates have been determined. Explain the relationship of each cost item to the project (e.g., if training or training expenses are requested, explain the topic of the training and its relationship to the project). Applicants **must** use the State of Arizona Travel Policy on rates for mileage, lodging, and meals (www.gao.state.az.us/travel/).*

Pass Through/Sub grants: *In the event that this application represents collaboration and the contract will be utilizing other sub grantees to perform various components of the program, include a list of sub grantees, programmatic work each sub grantee will perform, and how costs for each sub grantee are determined.*

Supplies and Operating Expenses: *Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less than \$5,000 are considered supplies and should be listed in this category. All purchases should be made through competitive bid or using established purchasing procedures.*

Administrative/Indirect Costs: *Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and **does not include** particular program costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in 2 CFR 220, 2 CFR 225, and 2 CFR 230.*

Applicants must list either Option A or Option B and provide proper justification for expenses included:

Option a - Administrative Costs: *with proper justification, sub grantees may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the*

project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.

Option B - Federally Approved Indirect Costs: If your organization has a federally approved indirect cost rate agreement in place, grantees may include an allocation for indirect costs for up to 10% of the grant request. **Applicants must provide a copy of their federally approved indirect cost rate agreement.**

Indirect costs are costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. Exhibit A

DEFINITION OF TERMS

As used in these Instructions, Special Terms and Conditions and Uniform Terms and Conditions, the terms listed below are defined as follows:

1. **“Activity”** means activities, services, and programs direct or indirect or contracted means to carry out strategies.
2. **“Application”** means bid, proposal or quotation.
3. **“Applicant”** means a person who responds to a RFGA.
4. **“Attachment”** means any item the RFGA that requires an Applicant to submit as part of the Application.
5. **“Best Practice”** means that there is a technique, method, process, activity, incentive or reward that is more effective at delivering a particular outcome than any other. Best Practice can also be defined as the most efficient (least amount of effort) and effective (best results) way of accomplishing a task, based on repeatable procedures that have proven themselves over time for large numbers of people. Best Practice is used to describe the process of developing and following a standard way of doing things that multiple organizations can use for management, policy, and especially software systems.
6. **“Collaborate”** means to work jointly with others or together to conduct planning, decision-making, or program execution; may include exchange of information or resources.
7. **“Contract”** means the combination of the RFGA, including the Instructions to Applicants, The Uniform and Special Terms and Conditions, and the Specifications and Statement or Scope of Work; the Application and any Application Clarifications; and any RFGA Amendments or Contract Amendments.
8. **“Contract Amendment”** means a written document signed by the Grants and Contracts Procurement Officer that is issued for making changes in the Contract.
9. **“Coordination”** means to take a leadership role and responsibility for outcomes in bringing people, organizations, or resources together to conduct planning, decision-making or program execution; to bring into a common action, movement, or condition.
10. **“Days”** means calendar days unless otherwise specified.
11. **“Early Child Development and Health” (ECDH)** means the array of programs, services, and supports in both Early Care and Education and Health which serve children aged birth through five years and their families.
12. **“Exhibit”** means any item labeled as an Exhibit in the RFGA or placed in the Exhibits section of the RFGA. Exhibits are resource materials.
13. **“Goal”** means broad measurable statement of intent to set a future direction; what an Applicant wants to accomplish. The goal communicates the direction of (more, less, maintain) the result statement. Goals indicate what First Things First will do as part of the comprehensive early childhood system. Each Goal is a piece of a larger picture and is inextricably interrelated and linked with the other Goals.
14. **“Goal Area”** means First Things First’s over-arching goals- Quality and Access; Health; Professional Development; Family Support; Coordination; Communications.
15. **“Grantee”** means any Applicant whose Application has been accepted and has been awarded a Grant with First Things First.
16. **“Grants and Contracts Procurement Specialist”** means the person, or his or her designee, duly authorized by First Things First to enter into and administer Contracts and make written determinations with respect to the Contract.

17. **"Key Measures"** means measures that align directly with Goals and indicate what we want to change. Many Key Measures listed will indicate whether regular progress toward First Things First Goals will be achieved within three to five years. Other Key Measures listed will provide important data to determine ongoing impact on and progress of the early childhood development and health system.
18. **"Logic Model" (LM)** means a sequential program planning, implementation, and evaluation process that identifies and links all elements to achieve positive impacts on individuals and the community. Using a logic model supports strong program/project planning and design, promotes realistic expectations, leads to identification of meaningful evaluation data, assists in monitoring progress and tracking changes so that successes can be replicated and mistakes avoided. The logic model provides a standardized approach to grant planning, implementation and evaluation that is used across the Arizona Early Childhood Development and Health regions.
19. **"Performance Measures"** means a short-term impact that links to the Key Measures and include service numbers.
20. **"Promising Practice,"** means practices that were developed based on theory or research, but for which an insufficient amount of original data have been collected to determine the effectiveness of the practices. Practices in this category may have been studied, but they did not go through rigorous study designs. These practices have been tested but the results are not as clear as those results in the proven category above. Practices that fall in this category are based on some type of research – whether it is theoretical, qualitative, or quantitative – but data have yet to be collected on effectiveness. Promising practices may have been tested under different conditions and, therefore, may have a research foundation. However, the practices themselves have not been tested using the most rigorous research designs, or were tested in different contexts.
21. **"Proven Practice"** means the study design uses a convincing comparison group to identify program impacts, including randomized-control trial (experimental design) or some quasi-experimental designs. Sample size of evaluation exceeds thirty in both the treatment and comparison groups. Must directly impact one of the indicators.
22. **"Research-based"** means research that is based on the neuro-biological, behavioral and social sciences that has led to major advances in understanding the conditions that influence whether children get off to a promising or worrisome start in life.
23. **"RFGA"** means an a Request for Grant Application (RFGA).
24. **"RFGA Amendment"** means a written document that is signed by the Grants and Contracts Procurement Officer and issued for making changes to the RFGA.
25. **"School Readiness"** means the match between the range of developmental accomplishments (e.g., emerging literacy and numeracy skills, such as pretending to read stories or counting to 20, and small-motor skills, such as buttoning clothes and holding a pencil properly) and difficulties (e.g., such as restlessness and inattention, speech difficulties, and less than optimal health) that children bring with them when they arrive at kindergarten and the capacity of schools to educate all children regardless of the abilities, interests and talents they bring to school.
26. **"State"** means the State of Arizona, Early Childhood Development and Health Board who executes the Contract.
27. **"State Fiscal Year" (SFY)** means the period beginning with July 1 and ending June 30.
28. **"Strategy"** means general methods or overall approaches used to achieve goals. Strategies provide direction and are globally defined best practices that positively impact the lives of children and families served. Strategies work together and indicate how we will implement the Goals.
29. **"Subcontract"** means any Contract, express or implied, between the Grantee and another party delegating or assigning, in whole or in part, the furnishing of any service required for the performance of the Contract.
